

Thank you to Southern Afghan Club for the invitation to judge their breed club show at Windsor Ch Show after the conclusion Windsor Afghan classes. I was extremely pleased with the entry in number and quality. I wish to thank the exhibitors for their entry and their willingness to show their dogs in the rain! Sorry, the ring was not large enough to move the dogs under cover and I need to move your hounds to be able to see their unique action. Hounds need to be shown in good muscular order and retain the breed characteristics, which I am pleased to say I found in my entry and my winners.

What a lovely start to my day, mature brindle boy, whom I have done well for previously, so correct in his construction, beautiful head, well laid shoulders, forechest deep, enough ribbing . Everything in balance and nothing overdone, Still moving well and shown in good coat.

He is a credit to his owner and still enjoys his time in the ring.

2nd Gezancol In The Zone

Another mature gentleman , enjoying his day out . Dark eye and kind expression. Good depth of chest and well laid shoulders . Shown in an abundance of coat and moved out around the ring .

Junior Dog (2)
1st Ayoubkhan Silk Road

Self masked cream, desired eye shape and super pigmentation , presents a lovely picture stood . Strong topline and prominent pin bones with good fall away and correct tail set . On the move he shows well with a light spring to his step and covers the ground easily with a raised ringed tail . He was shown in lovely musculature condition and has a lovely coat of silky texture . Obviously needs to mature into his frame but I liked him very much RBD

2nd Yansukhim's Sherbet Fizz

He really loves his time in the ring , very exuberant on the move and doesn't always show himself to his best advantage. He has correct head proportions, adequate length of neck , enough rib , long from hip to hock , just needs to strength in rear action and learn to control his drive and lift .

Repeat from 2nd in junior

Graduate Dog (1, 1 abs)

Post Graduate Dog (3)

1st Hariri Ebn Mahsati Von Hausman

I have watched this dog from the ringside and have admired lots about him but have been frustrated , I imagine his owner feels the same , he doesn't always show his true potential . He commands attention on

the stack , he looks through you , he has a beautiful head , correct eye shape and chiselling . Good reach of neck , level topline and well made rear quarters , today he moved , with his tail raised and covered the ring well and as his confidence grew “ style of movement , started to show “ . I hope with maturity his owner can maximise his potential . I very much liked him .

2nd Zandahar Xplosive Storm

Masculine brindle , liked his balanced profile on the stack , all male in expression and strong under jaw he has good length of neck , strong level topline and correct fall away . Large feet and shown in excellent coat of good texture . On the move I would have just preferred his head to have been raised and shown more confidence and attitude .

3rd Cloudside Sun King

Limit Dog (5,2)

1st Drishaun Star Among Lilies JW

Another from this kennel shown to advantage , always presented in top order and importantly in excellent muscular order. Masculine head , with good proportions, desired expression . Ample length of neck which sits well into a good lay of shoulder , strong level topline , muscular hindquarters which he used on the move , raised ring tail . Handled well .

2nd Zandahar Xcuse Me Mister

Dark silver brindle, masculine head with good length of fore face , strong under jaw , dark eye giving the correct expression. He excels in front , good depth and width with well set shoulders . Pin bones prominent and correct fall way . Not so positive on the move , I don't think the rain helped .

3rd Tulak Fast And Furious

Open Dog (1)

1st Ch Drishaun Said Tiger To Lily

Quality brindle , he is a dog when you put your hands on him , everything is correct , strong and muscular my notes said. Text book head , masculine with desired expression, strong under jaw . Balanced body proportions, great length from hip to hock , large feet . Coat in great order and correct texture nothing overdone . He moves very much at one with his handler and is shown to the best advantage using all of the ring . He could not be over looked today . Thank you for bringing him . BD and RBIS
